Friday, May 9th
to celebrate the opening of
University Settlement: A Year in Pictures

presented by
Professional Women Photographers (PWP)

Eight professional women photographers made an ambitious commitment one year ago to contribute their time and talent to document the outstanding impact of University Settlement, one of the city's most dynamic social service institutions and the first settlement house in America, which helps 20,000 at-risk and low-income New Yorkers to build better lives for themselves and their families.

They captured the spirit of the vibrant immigrant community that calls the Lower East Side home today and created an invaluable photographic archive of 3,000 images for University Settlement. This exhibition celebrates their achievement.

Members of Professional Women Photographers (PWP) Community Service Committee include: **Susan Heske, Jane Hoffer, Joan Katz, Catherine Kirkpatrick, Andy Mars, Betsy Pinover Schiff, Karen Smul, and Deb Tobias.**
